5.4 Student feedback mechanism on Institutional Governance / Faculty Performance

Our Institution has online student feedback mechanism for strengthen the academic activities. Each class has got a separate class committee comprising of the faculty and student representatives chaired by a senior faculty member of the department. The committee meets three times in a semester and all academic issues related to various subjects' teaching learning process are discussed. The students are free to express their views on the institutional governance and/or the faculty performance and the remedial measures if necessary are taken immediately.

In addition, the performance of faculty members has been regularly assessed through self-appraisal and student's feedback. Necessary steps are taken to suggest corrective actions to improve the teaching-learning process. The learned, self-disciplined and committed faculty members, besides the classroom teaching, encourage an open-door interactive learning process through regular counselling, informal meetings, discussions, etc., and thus provide guidance and support services to students in academic matters.

5.5 Grievance Redressal Mechanism for Faculty and Students

The institute has set up a Grievance Redressal Committee to look into the grievance of the students and faculty. The Cell consists of senior members of faculty, which very closely

interacts with all the students and faculty, and thus facilitates effective redressal of grievances of any kind.
